More Positive Test Results

As of Monday January 29th we had an additional positive COVID-19 test on the 1st floor of the Health Center. Both floors of the Health Center remain in “Outbreak Mode”. The potential free date for first floor will be February 13th.

Staff will be required to wear a KN 95 mask when in resident care areas. A regular fit-tested N 95 mask is required when entering a room where a positive test has occurred.

Visitors will be required to wear hospital masks when visiting either floor of the Health Center or when visiting residents in the Westview Assisted Living Community. We are also requesting that visitors confine their visits to one resident per day to help reduce the possibility of spreading the virus.

All Health Center residents will continue to be tested every Monday and Thursday as we have been doing. Staff will also be tested on Mondays and Thursdays. If they are not working on a Monday or Thursday they must test prior to the start of their next scheduled shift.

As always, thank you for your understanding and your patience. If you haven't yet, please consider getting vaccinated to help control this virus.
