Family Ties

COVID-19 Update

We are happy to be able to report yet again, that all our residents continue to be “hale and hardy”. Although all the test results are not in yet from Monday’s staff testing, all results thus far have been negative. This is certainly good news.

Things have stabilized within SWH and also, seemingly, within Richland County. This, coupled with the progress being made with individuals starting to receive the vaccine would seem to indicate that progress is being made in getting this thing under control. This also means that there is less in the way of meaningful news to report. For that reason, we will be going to a once-a-week schedule for the Family Ties. Therefore, the next edition of the Family Ties will be sent out on Friday January 15th.

If there are significant events that should happen during the week we will, of course, get this information to you by sending out a “Special Edition”. Also, if there is information you would like but are not seeing, please let us know and we will do our best to provide it to you. Please feel free to contact us by return email with your requests or comments.

All SWH
Residents Are
In Good Health
At This Time

“Hardships often prepare ordinary people for an extraordinary destiny.” – C.S. Lewis

County Update

The latest data on the Richland County COVID-19 information site shows that there have been a total of 1,131 positive COVID-19 cases in Richland County. Of those cases 347 are still considered active and the number of deaths remains at 13.
