

# Schmitt Woodland Hills Brings You....

## *The* ***Family Ties*** *Newsletter*

May 9, 2024

Sometimes no news is the best possible news. That seems to be the case on this the first Tuesday in May 2024. We are being blessed with lovely spring rains that will certainly make the Spring flowers wake up from their long winters' nap. The residents are looking forward to outdoor activities. Trishaw rides should be starting in the very near future. It is just a wonderful time of the year and our residents will soon be able to feel the wind in their hair.

***No Positive  
Test Results***

The second grade students in the Riverdale School District recently had a special guest reader. Long-time Schmitt Woodland Hills resident and Delta Kappa Gamma member, Dr. Jean Birkett was on hand to read to the children. The Delta Kappa Gamma Society is an International Society of key women educators. The Delta Kappa Gamma Society International promotes professional and

personal growth of women educators and excellence in education.

In the story that Dr. Birkett read the main character discovers that there is more to life than watching television or playing video games.

The message for the children was to be aware that a book can open a whole new world and teach us so many wonderful things.

A huge thank you for the unmatched care and compassion our entire team of nurses bring to our residents on a daily basis! Whether it's providing quality care for our residents, bringing peace of mind for their families, or brightening the lives of your coworkers, you enhance Schmitt Woodland Hills in innumerable ways! Acting in roles ranging from caregivers, to instructors, to leaders, you make our community a better place. If you see any of these amazing nurses, be sure to show them your appreciation!
