## *Family Ties*

### Family Update

#### **“Outbreak Mode”**

Due to new positive test results within our campus we are operating under an “Outbreak Mode” until further notice. This designation affects both Health Center 1 & 2. We have one resident and a number of staff members who have tested positive for the virus. We will remain in “Outbreak Mode” for at least two weeks. You will be updated as this situation changes.

*Due to New  
Positive Tests  
We Are Under*

Westview is in “Outbreak Mode” because one staff person has tested positive as well. They too will remain in this mode for at least two weeks.

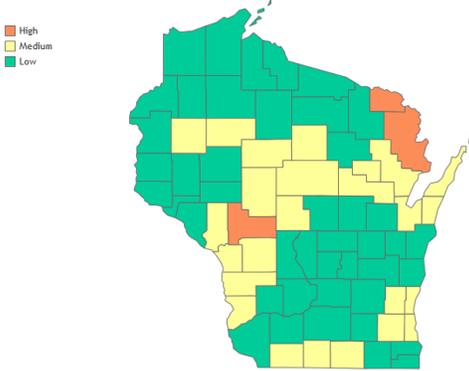

Current CDC Guidelines must be followed while we are in “Outbreak Mode” in order to continue to operate within State and Federal Guidelines. These guidelines are as follows:

- 1.) Staff must wear an N95 mask and a face shield whenever they enter an affected area.
- 2.) All residents in the affected areas will be tested every 3-7 days.
- 3.) All fully vaccinated staff will be tested every Monday and Thursday until the outbreak mode is lifted.
- 4.) All staff that are not fully vaccinated will be tested prior to the beginning of each shift.
- 5.) Special procedures for serving resident meals will be put in place.
- 6.) There will be no additional restrictions on visitations. However, as always, visitors must wear masks in all areas of the building.

### COVID Community Levels Data

Today, Friday September 9th, the State map showed some pretty positive news. Only 3 counties were showing High levels of activity, while 25 counties were showing Medium levels and 44 counties were showing low levels of COVID activity. Richland County remains categorized as a county with low activity and this is good.

CDC COVID-19 Community Levels  
Updated: 9/9/2022

As stated on Page 1, all areas are open for visitors but, hospital masks will still be required for all visitors. A supply of masks is provided at each of the entrances where you must sign in and take your temperature when entering the building.

### Nothing Like Good Music and Good Weather

We took advantage of the beautiful weather with a fantastic music program! We were joined by the son of one of our residents and his bandmate; lots of tapping feet and smiling faces!
